

6. Sustainability Outcomes including Green Initiatives

Every year we are conducting social services to promote our students to provide selfless service to the society. A number of “Relief Camps” are opening in Manipur. So, a team of teachers and students are frequently visiting them to provide social services and essential commodities to them. Every year we are conducting plantation program with the slogan “ONE MAN ONE TREE”. More than one thousand trees have been planted so far inside and outside the college campus and nearby villages.
